

HATE TRUMP? QUIT GPT!

ChatGPT is currently the most popular AI chatbot, but many users don't realize that the app:

FUNDS MAGA

OpenAI's president Greg Brockman was the **largest donor (\$25 million) to Trump's Super PAC, MAGA Inc**, according to their latest year-end report.

SUPPORTS MILITARY SURVEILLANCE

Trump's Department of War signed a **\$200 million contract with OpenAI** that could lead to AI for mass surveillance and autonomous weapons.

RECRUITS FOR ICE

ICE screens recruits for Trump's deportation force with a hiring tool built on OpenAI's GPT-4.

ACCELERATES ENVIRONMENTAL DESTRUCTION

A single AI data center uses the **same amount of energy as 100,000 homes and consumes up to 5 million gallons of water daily**. Many data centers rely on dirty energy like diesel generators that pollute our water supply and contribute to climate change.
